About the Saudi Electronic University (SEU)

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

A Saudi-wide, public university with 15 branches and over 32,000 learners enrolled. Established in 2011, offering higher education services using best-in-class eLearning methods and technologies. The university's mission is to lead the utilization of technology and build local knowledge by partnering with renowned global institutions to contribute to the national development of Saudi Arabia.

In this report, we outline some of the many activities the university contributes to achieving the global Sustainable Development Goals (SDGs) in many fields, such as research, teaching, engagement/outreach, and operations, setting the university on a path to a more sustainable future for all.

1 NO POVERTY

NO POVERTY

End poverty in all its forms everywhere

INDIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

Since its founding in 2011, Saudi Electronic University has been working to combat poverty, focusing on those who live on campus, including staff, students, and the local community. There has been a lot of work over the last year, and can be summarized in the following 3 points:

Students funded programs statistics (2023):

142

Activities

1700+

Beneficiaries

\$1 Million

Fund Amount

SEU has provided many supporting programs to the departments: the Financial Affairs Unit, Career Guidance and Alumni Office, and Loans and Assistance Division. The Student Fund works to develop the Student Fund's resources to achieve psychological stability for students in financial need and to support student activities and services.

Relevant research/programs impacting SDG 1 (2023):

99+

Research on poverty

740+

Training Programs

Some of SEU faculty research and delivered educational programs have focused indirectly to end poverty. These efforts attempted to determine the factors influencing the degree of poverty in numerous programs that train local youth to be employable and prepare them for the workforce, empowering job seekers to overcome obstacles.

Relevant conferences & events impacting SDG 1 (2023):

14

Conferences & Expos

70+

Events

SEU organized a number of initiatives to determine the true causes of the poverty issue in Saudi Arabia via a number of workshops, conferences, and events to Address Poverty. SEU launched the initiative "Ataa" with (Ehsan.Sa) for encouraging charitable work, promoting the values of national belonging, humanitarian work, and social responsibility among individuals and institutions of societies surrounding SEU 14 branches across Saudi Arabia.

SEU students at a career guidance program in Japan. [Link](#)

2 ZERO HUNGER

ZERO HUNGER

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

INDIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU has an indirect impact through its mission in education to innovate improved ways for everyone to access nutritious and healthy food sustainably. Which will require the strategic use of economic incentives, new forms of governance, and changes in existing values and behaviors.

Planting & nutrition programs statistics (2023):

3+

Activities

100+

Beneficiaries

SEU has adopted a sustainable food system, boosting the percentage of locally produced food and drink served on campus. Ensuring that every food and drink used complies with sustainability standards. Also, providing awareness of the effects of common food choices on health and the environment.

Relevant research/programs impacting SDG 2 (2023):

124+

Of research on food security and improved nutrition

5+

Programs for Ministry of Environment, Water and Agriculture

SEU outreach has impacted this SDG through funded faculty research and developed training and consultation programs for the Saudi Ministry of Environment, Water and Agriculture (MEWA). The programs delivered for MEWA include (1) Providing environmental awareness services and organizing awareness campaigns in the Ministry's branches in the Kingdom. (2) Providing advisory services to support the implementation of the operational framework for the environment sector. (3) Providing media services for the agricultural subsidies program for the Ministry of Environment, Water and Agriculture.

3 GOOD HEALTH AND WELL-BEING

GOOD HEALTH AND WELL-BEING

Ensure healthy lives and promote well-being for all at all ages

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU is dedicated to fostering well-being and healthy lifestyles for students and staff. Good health and well-being are essential to sustainable development, which takes into consideration new issues like environmental and climate concerns and infectious diseases.

Awareness programs statistics (2023):

SEU delivered many awareness programs for individuals to educate them on how to maintain well-being and good health. The programs vary covering multiple topics, such as the concept of mental health and its impact on quality of life, the impact of technology on mental health, and future trends in digital health.

Relevant research/programs impacting SDG 3 (2023):

SEU impacted the well-being and good health SDG via funded faculty research. In 2023, started funding initiative E-Health research as part of the SEU institutional funding program for R&D that is offered by the Ministry of Education. Also, via consultation service for the Saudi Public Health Authority (Weqaya) in providing training in the fields of public health and monitoring of infectious and non-communicable diseases at the national level, providing administrative and technical consultations.

Health Academic statistics (2023):

Over 2,400 SEU students have graduated from bachelor's and master's programs health sector and joined the workforce in Saudi Arabia. The programs include a BA in Health Informatics, Public Health, and Health Management, and an MA in Health.

4 QUALITY EDUCATION

QUALITY EDUCATION

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU as a pioneer of future learning in Saudi Arabia, is responding to fundamental changes in the world by capturing new opportunities created by local and global trends relating to economics, demographics, culture, technology, regulations, jobs market.

SEU achieved awards for quality education (2023):

Gomory-Mayadas Award for Excellence in Online Educational Leadership

Anthology Catalyst Innovation & excellence in Education Award

Anthology Together Middle East 2023: Partner Award

SEU is a public university with 15 branches across the kingdom of Saudi Arabia with over 32,000 learners enrolled and is keen to promote inclusive, high-quality education for all. It also aims to provide equal access to affordable vocational training, eliminate gender and wealth disparities, and achieve universal access to quality higher education. SEU's strategy sets it to be part of Saudi's transformation journey, supporting the achievements of 7 primary and 37 secondary objectives of Vision 2030. SEU's strategic vision is built around five themes: Learners' Empowerment, E-learning Leadership, Digital Innovation Commercialization, Community Development, and Financial Sustainability. These five strategic goals are derived from the university's unique competitive advantages, and the kingdom's Vision 2030.

Governmental Statistics (2023):

40%
Of SEU students Employed

المركز الوطني للعمل
Labor Observatory

SEU recorded the highest percentage of employees perusing academic degrees among Saudi universities

SEU has sought to adopt the latest qualitative scientific programs and specializations that are compatible with the needs of the Saudi labor market and the requirements of sustainable development, in coordination with the Ministries of Labor and Social Development and Civil Service. It has also sought to qualify its graduates by bringing in the latest educational curricula in partnership with renowned global institutions to contribute to the national development of Saudi Arabia.

5 GENDER EQUALITY

GENDER EQUALITY

Achieve gender equality and empower all women and girls

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

It's proven that empowering females helps economic growth and development. SEU has made gender equality central to its work and we've seen remarkable progress in the past years. There are more females in leading positions now compared to previous years.

First female Saudi president of mixed gender University (SEU):

Prof. Lilac AL Safadi,
First Female President of
Saudi Electronic University
2020 to 2023

The appointment of Dr. Lilac AlSafadi as president of SEU as the first woman president of a Saudi university that includes both male and female students is an ample example of the women empowerment within SEU and the country.

Relevant programs impacting SDG 5 (2023):

40+

Activities

1463+

Female Beneficiaries

Saudi women are an important element of the Kingdom's strength, and we will continue to develop their talents, invest their energies and enable them (Female students and faculty) to have the right opportunities to build their future and contribute to the development of our society and economy. SEU had established multiple event to empower female, such as "Women Leadership Camp", and "Women Empowerment Club".

Relevant research/training impacting SDG 5 (2023):

Of research on

Gender equality & Women
Empowerment

149

Female Research
Trainees

SEU supported female students and faculty to develop their research capacity and skills, the "WEmpower" Research Accelerator Program was launched, in alignment with the drive to both empower women and build capacity in research development and productivity in Saudi Arabia.

Wempower, One of SEU's training program to accelerate Women's Research. [Link](#)

6 CLEAN WATER AND SANITATION

CLEAN WATER AND SANITATION

Ensure availability and sustainable management of water and sanitation for all

INDIRECT
POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU's outreach has impacted this SDG through multiple awareness programs and collaborations many Saudi agencies concerning with providing safe and affordable drinking water for all by investing in adequate infrastructure and protecting and restoring water-related ecosystems is essential.

SEU outreach impacting SDG 6 (2023):

22+

Workshops

3 MOU

With Water
Governmental Entities

SEU works towards increasing sustainable water-use efficiency across all sectors and ensuring the availability of freshwater supply for all in Saudi Arabia. To address water scarcity and sustainable management of water and sanitation for all, SEU has developed training and consultation programs for the Saudi Ministry of Environment, Water and Agriculture, the Saudi Water Desalination Corporation, and the Saudi National Water Company.

Relevant SEU activities impacting SDG 6 (2023):

76+

Of research on
Sustainable water for
all

5+

Programs for
Ministry of
Environment, Water
and Agriculture

SEU has launched a number of awareness campaigns and training programs for rationalization of water consumption and conservation. A series of awareness programs titled "Water Life Journey, the concept of the National Strategy for 2030" in collaboration with the Saudi National Water Company. Which aims to raise awareness among university students & faculty of the importance of water and the most important ways to rationalize its consumption. In addition, to educate about effective sustainable contributions to natural resource rationalization of water in all university facilities and installations.

SEU & Saudi Water Desalination Corporation signed a MOU to build a joint strategic cooperation. [Link](#).

7 AFFORDABLE AND CLEAN ENERGY

AFFORDABLE AND CLEAN ENERGY

Ensure access to affordable, reliable, sustainable and modern energy for all

DIRECT
POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU has adopted strategies across all campuses to cope with climate change in the environmental dimensions (air, water, waste, and public health), and it has been recognized by the Saudi Energy Efficiency Center for achieving a 100% commitment to rationalizing energy consumption.

SEU teaching model & recognized energy consumption:

2 days

Online learning saves 50% of the energy and resources consumption

100%

commitment
كفاءة

المركز السعودي لكفاءة الطاقة
Saudi Energy Efficiency Center

For rationalizing energy consumption

SEU is a public university with 15 branches across the Kingdom of Saudi Arabia with over 32,000 learners enrolled and is keen to promote inclusive, high-quality education for all.

Following the "Blended Learning Model" students attend from home (Online) two days of their assigned lectures during the four days of the week, where no lectures are assigned on Thursdays. This method of teaching saves 50% of energy and resource consumption because students and lecturers both connect effectively and efficiently online from their homes across all SEU 15 branches.

Relevant programs/research impacting SDG 7 (2023):

14+

Of research on Sustainable Energy

14k+

Beneficiaries

SEU has launched many awareness programs and initiatives across all campuses for energy management and efficiency, teaching about the role of institutions in conserving energy and raising awareness of how to rationalize and optimally invest in highly efficient devices. Educating about how the university seeks to achieve high efficiency in its energy consumption and bears the responsibility of research and development in new technologies to solve the problem of consumption.

The Energy Efficiency Center honoring SEU as a distinguished government entity for 100% level of improving energy consumption. [Link.](#)

DECENT WORK AND ECONOMIC GROWTH

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

At the national level, SEU's 2025 strategy will create 2,000 new jobs with 21,000 highly qualified workers entering the Saudi labor market, upskilling and reskilling 700,000 of the workforce. In terms of economic impact, SEU's strategy is expected to contribute \$2.4 billion to Saudi Arabia's GDP.

Governmental Statistics (2023):

40%
Of SEU students Employed

National Labor Observatory المرصد الوطني للعمل

SEU recorded the highest percentage of employees perusing academic degrees among Saudi universities

SEU has sought to adopt the latest qualitative scientific programs and specializations that are compatible with the needs of the Saudi labor market and the requirements of sustainable development, in coordination with the Ministries of Labor and Social Development and Civil Service. It has also sought to qualify its graduates by bringing in the latest educational curricula in partnership with renowned global institutions to contribute to the national development of Saudi Arabia.

Relevant statistics impacting SDG 8 (2023):

700k+
Saudi workforce upskilling and reskilling

21k+
Workers join the labor market by 2025

SEU was established to expand its branches in all regions of Saudi Arabia and to meet the requirements of the labor market and the requirements of national development needs. Therefore, the university developed many training programs and courses as part of lifelong learning opportunities and in line with the needs of the Saudi labor market. SEU's five-years strategy will create 2,000 new jobs with 21,000 highly qualified workers entering the Saudi labor market, upskilling and enabling 700,000 of the workforce.

SEU seeks to align its technical educational outputs with the requirements of the labor market and the future jobs. [Link.](#)

INDUSTRY, INNOVATION AND INFRASTRUCTURE

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

DIRECT
POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU has accomplished distinguished growth in Technopreneurship through strengthening spreading entrepreneurial and innovation culture, developing applied scientific research capabilities with a focus on e-disciplinaries, and strengthening its consultancy with communities across Saudi Arabia.

Relevant research/programs impacting SDG 9

(2023):

11+

Of research on sustainable industrialization

21+

Programs for Ministry of Industry and Mineral Resources

As part of the SEU outreach to promote inclusive sustainable industrialization and foster innovation within the country, SEU developed training and consultation programs for the Saudi Ministry of Industry and Mineral Resources. The programs include (1) The Future Minerals Forum (FMF) is the world's premier platform for minerals. FMF stands at the forefront of global industry connections. (2) Providing advisory services to support the implementation of the operational framework for the workforce in the ministry. (3) Providing media awareness programs for the Industry and Mineral Resources.

Students funded entrepreneurial and innovation programs statistics (2023):

120+

Activities

12250+

Beneficiaries

13+

Startups

Sustainable entrepreneurship and innovation are the most important drivers of economic growth in Saudi. SEU held many activities to enhance the innovation and entrepreneurship environment to support the Kingdom's knowledge-based and innovation-based economy. These activities targeted students and all segments of society to create new job opportunities, innovative products and services in various fields contributing to the country's resilient infrastructure and sustainable industrialization.

10 REDUCED INEQUALITIES

REDUCED INEQUALITIES

Reduce inequality within and among countries

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU with 15 branches and over 32,000 learners enrolled, offers higher education services to everyone, expanding access for students who require flexibility, live in remote areas, have obligations that conflict with regular university schedules, or have physical disabilities that call for specialized services.

Statistics impacting SDG 10 (2023):

15 branches

Regional outreach reducing inequality

35+

Activities

10k+

Beneficiaries in surrounding communities

SEU with 15 branches and over 32,000 learners enrolled, offers higher education services to everyone reducing inequalities in education opportunities, within and among Saudi Arabia. In addition to its role of providing higher education, SEU developed many programs for the surrounding communities of its 15 branches including training and development, plugging skills gaps locally and regionally, impactful research, entrepreneurship, and strategic partnerships.

Relevant programs impacting SDG 10 (2023):

International Stand Up to Bullying Day

[Link.](#)

SEU applies strict rules and regulations within all campuses that prohibit all forms of discrimination based on gender, color, age, race, ethnicity, religion, nationality, marital status, or disability. In addition, SEU encourages its students, faculty, and staff to denounce and report any discriminatory act, such as bullying, racial persecution, or gender-based or sexual harassment.

SEU opens two new branches in Jubail and Yanbu, as part of its strategic plans to expand in all regions of Saudi Arabia. [Link.](#)

SUSTAINABLE CITIES AND COMMUNITIES

Make cities and human settlements inclusive, safe, resilient and sustainable

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU leadership in providing scalable, efficient, resilient, and dependable higher education across 15 cities in Saudi Arabia, has advanced its responsibility to organize events & support research for achieving inclusive, safe, resilient, and sustainable cities and communities.

Statistics impacting SDG 11 (2023):

4th

Ranked for operational efficiency in Saudi Arabia

Government Expenditure & Projects Efficiency Authority

SEU reduced its environmental impact and set an example for sustainable practices by integrating sustainability into every aspect of campus operations. Comparing SEU to traditional institutions, its operating model has increased operational efficiency by more than 70% and improved physical space usage by 10%. SEU's strategy, which aims to save the institution \$169 million in operating expenses by 2025, centers on shifting from operational efficiency to financial sustainability.

Relevant research/programs impacting SDG 11 (2023):

82+

Of research on smart cities sustainable communities

35+

Activities

10k+

Beneficiaries in surrounding communities

Through a variety of initiatives, activities, and studies, SEU helps create sustainable cities and communities. The fundamental significance that history and culture play in promoting sustainable development, therefore, to encourage the culture and appreciation of Saudi heritage, it frequently hosts exhibitions and activities for staff and students. Culture can be used to set the stage for local comprehension and implementation of sustainable development. Organized activities can aid in renegotiating relationships with oneself, other people, and the environment, eventually boosting the potential for sustainable constructive change in our communities.

14 LIFE BELOW WATER

LIFE BELOW WATER

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

INDIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

Educational institutions are crucial in promoting awareness and running initiatives to prevent damage to the aquatic environment. Reducing ocean acidification and pollution should be the main goals of the research, which is accomplished through collaboration at all levels.

SEU outreach impacting SDG 14 (2023):

20+

Of research on actions to combat climate change and its impacts

4 MOU

To prevent damage to the aquatic environment

SEU conducted many training programs for those who are involved in daily bases with marine life such as the Saudi Naval Forces. In addition to gathering information on the condition of regional marine ecosystems and the effects of human activity, SEU has funded academic research on subjects like ocean health, sustainable fishing, and marine life.

One of the SEU outreach programs for governmental entities such as Saudi Naval Forces. [Link](#).

15 LIFE ON LAND

LIFE ON LAND

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

Deserts cover much of the Kingdom of Saudi Arabia's land area. In order to maintain current land use and stop or reverse desertification, it is crucial for the Kingdom to maintain life on land. Maintaining livelihoods depends on the utilization of land to support human life.

Policies impacting SDG 15 (2023):

Waste Management Policy [\(Link\)](#)

Carbon Emission Reduction Policy [\(Link\)](#)

Hazardous Waste Management Policy [\(Link\)](#)

By carrying out its policies on the reduction of carbon emissions, plastic waste, and the disposal of hazardous waste, SEU is dedicated to guaranteeing the preservation of its territory. SEU has developed and implemented policies that address Carbon Emission Reduction, as well as various waste disposal issues, such as the hazardous Waste Management Policy, Environmental and Sustainability Policy, and Waste Management Policy. The policies aim to reduce the negative environmental impacts of our Carbon Emissions Reduction, and waste is in an environmentally responsible manner.

Relevant research/programs impacting SDG 15 (2023):

22+

Of research on carbon reduction, waste management

35+

Activities

10k+

Beneficiaries in surrounding communities

SEU organized multiple activities the university contributes to maintain current land use and stop or reverse desertification in many fields, such as research, teaching, engagement/outreach, and operations, setting the university on a path to a more sustainable future for all.

One of the awareness program on promoting sustainable use of terrestrial ecosystems. [Link.](#)

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

PEACE, JUSTICE AND STRONG INSTITUTIONS

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

DIRECT POSITIVE IMPACT

الجامعة السعودية الإلكترونية
SAUDI ELECTRONIC UNIVERSITY
2011-1432

SEU's governance measures are based on the foundations and principles of justice, and on the principles of equal opportunities, transparency, accountability, professional integrity, neutrality, and loyalty to the university achieving its mission and goals and bearing responsibility.

Policies impacting SDG 16 (2023):

Student Rights And Responsibilities Policy ([Link](#))

In order to achieve justice for its students, transparency, fairness, and equality for all, SEU guarantees the rights of students and seeks to educate them about their rights and responsibilities towards others, to establish student affiliation with the university. The university has formed student rights protection committees for student rights protection at two levels, the university & the college levels.

Relevant research/programs impacting SDG 15 (2023):

29+

Of research on Law & Justice topics

2 Law

Academic Programs

613

Law Graduates

Through its educational mission, SEU offers two Law programs at the undergraduate and graduate levels. The goal is to promote peaceful and inclusive societies for sustainable development and provide access to justice for all. The programs empower the students with interaction between Saudi rules and regulatory laws, and ensure the development of the student's personal skills, by presenting it through technological educational means, in order to prepare specialized and modernly qualified cadres that enable them to participate in various development sectors.

[f](#) [t](#) [v](#) @Saudi_EUni www.seu.edu.sa

One of SEU's awareness programs on justice, titles "The impact of law on our lives". [Link](#).

PARTNERSHIPS FOR THE GOALS

Strengthen the means of implementation and revitalize the global partnership for sustainable development

INDIRECT POSITIVE IMPACT

SEU believes that in order to successfully accomplish the SDGs, collaboration is crucial. Governments, academic institutions, businesses, nonprofits, and the private sector must all work together to address the global issue of sustainable development.

GTEL2023 statistics (2023):

40+

Speakers from around the world

50+

International Exhibitors

23+

Talks & workshops

To better address some of the most pressing issues facing the world, SEU aims to fortify local & international collaborations in order to boost capacity, knowledge, expertise, and financial resources. Increasing its outreach for regional and global collaboration on and access to science, technology, and innovation, as well as improving information exchange on mutually acceptable conditions. One of the outreach programs is the Global Trends in E-Learning GTEL2023, which is an annual forum on the most recent developments, trends, technologies, and practices shaping the future of e-learning, attended by top international and local policymakers and education leaders.

Relevant conferences/events impacting SDG 17 (2023):

163+

Countries accessed the Arabic Online program

7+

Conferences & events

SEU worked with regional and international organizations to expand on previous efforts to create metrics of sustainable development progress that supplement gross domestic product and support statistical capacity-building in developing national challenges, in accordance with the university's social responsibility and role in advancing the nation's intellectual, scientific, and research movement. One of the pioneer global outreach programs is the Arabic Online, which provides distinguished Arabic language education for non-native speakers in 163 countries around the world.
